

Your Legislative Committee met recently to discuss future events and issues that impact us all in our day to day lives as professional Appraisers. Every one of us is an unpaid volunteer working for you on issues that you may not even be aware of. We hope it makes a difference for you.

We have decided to send representative Dale Bailey to the [Association of Appraiser Regulatory Officials](#) (AARO) conference in DC. In conjunction with that we will be attending the Network of State Appraiser Organizations (NSAO) gathering the day before that conference. As well as attending the ASB general meeting Friday Morning. If possible, we will meet with our representatives in DC and campaign our cause. This is in October.

SCPAC has been a beacon of light that has led to 28 states being associated in the Network of State Appraiser Organizations (NSAO), In less than 5 years!! It has provided a seat at the tables of many important committee meetings where our voice is starting to be heard. This group is independent and not an organization. We have no President, no Officers, just a group of dedicated professionals who communicate and spearhead information and dialogue throughout the country for ALL Appraisers.

Several Members at large will also attend <http://www.appraiserfest.com/> on November 1, 2,& 3 in San Antonio, Texas. All Appraisers are invited to attend and that means YOU!!!!

The more of us from South Carolina, the stronger our voices will be. This gathering is **ONLY** for Appraisers. No AMCs, no lenders, just us so we can come together and discuss issues honestly with our peers. This should be a wonderful experience for us all. San Antonio is a pretty cool place. Some great nationally known folks will be attending as well as teaching. Check out the Website above for more info!

Also there CE offered and credit can be applied for through LLR.

The Fall Conference is also scheduled for September 27th! Speakers of great interest will be talking to our state appraisers on topics that concern our profession. Expect emails announcing the time and location, or go to the Website for more details!

Come.

Have a good time.

Network.

Meet new friends.
